

# F-16D (SADL) (Manning), SPO-Martin

## **DESCRIPTION OF EFFORT**

Situational Awareness Data Link (SADL) will provide the AFRC F-16 fleet with a capability to work with other USAF units as well as US Army units in close in combat and minimize the potential for fratricide.

Four CC coded jets will be accomplished within existing SPO speed lines. SPO speed line install operations will be augmented with ANG install capabilities for TF coded jets

Program Assessment:  
Green
